### Deposit Policy

Deposits will be placed on a waiting list and not on a specific puppy. Deposits are meant to guarantee you get a puppy that fits your lifestyle, personality and wants. I will not place puppies based on sex or color alone. I will do my best to accommodate these considerations but personality and drive suitable to each environment is most important in placing my puppies. If color or gender is a requirement to the Seller and a puppy is not available for those requests, the deposit will not be refunded but will be rolled over to another litter of the Buyers choosing.

Puppies will not be chosen till closer to 7 or 8 weeks. The reasoning behind this is that puppies need this amount of time to mature and their personalities to develop. We also evaluate the puppies for potential performance homes at this time. Puppies will not be chosen at birth or prior to 7 weeks as sex and markings are the only true things that can be determined at that time. I make every effort to accommodate the choices of the prospective homes, but I will NOT place a puppy in a home if I do not believe it is the right fit for a particular home.

In the case that there are not enough puppies produced in the litter and/or a suitable match in the litter (as determined by the Breeder), your deposit can either be refunded or transferred to a future litter. This happens more often for a home looking for a specific sex or color.

If you would like to discuss these policies or have any questions, please do not hesitate to contact me. I am always willing to work with prospective puppy buyers and do my best to accommodate. However, keep in mind that my primary concerns are for the safety and well being of the puppies I breed. Please be sure to state all your concerns prior to sending your deposit.
